Session Descriptions

University of California Panel

The University of California system includes more than 280,000 students and more than 227,000 faculty and staff, with 2 million alumni living and working around the world. Hear from our undergraduate campuses, what makes them special, and why they are routinely ranked among the best in the world.

UC Transfer Student Panel

Who better to provide insight on the transfer journey than those who have walked in your shoes? Join current UC transfer students as they share their experiences both prior to and after transferring to a University of California campus. Attendees will also have the opportunity to ask questions.

Transfer 101

California community colleges offer a wide range of support services and programs to help students achieve their academic and personal goals. Discover what is available at the junior-college level and how these programs can help you stand out as an applicant.

Financing Your UC Education

Worried about the cost of obtaining a UC degree? The University of California's financial aid program supports students from all backgrounds in a multitude of ways. From grants, scholarships, to low-interest loans and more. Come learn about your options!

Maximizing Your Bruin Experience

Picture this: You've transferred to UCLA and you're wondering how you can make the most of your time here while building meaningful connections. Whether it's studying abroad or seeking out research and internship opportunities, find out how you can make that happen with a little bit of help.

Bruin Support

The Academic Advancement Program (AAP) and the Center for Community College Partnerships (CCCP) can help you navigate the transfer process. From peer support to transition programs, this session will show you what UCLA has available to help you during the application process and as a newly admitted student.

Bruin Community

Finding your community is a key factor in being a successful transfer student. We welcome you to hear from our campus resource centers and how they support students in connecting and building a home within the UCLA community.
